

THE 2016 - STATE OF NEBRASKA
Primary, General and Special Elections

A Summary of Campaign Financing

The Candidates and Ballot Questions
Political Action Committees
Political Party Committees
Corporations, Unions & Other Entities

INTRODUCTION

This publication summarizes financial activity which occurred during the 2016 election year. The information was obtained from the campaign statements filed by political committees and from reports filed by corporations, unions, and other entities. Each section of this publication begins with a brief summary describing its contents.

The Statewide Primary Elections were held on May 10, 2016 and the Statewide General Elections were held on November 8, 2016. Other, Special Elections were locally held on various dates throughout the year.

Registration of a political committee is required upon raising, receiving or spending, more than \$5,000 within a calendar year to influence an election. Therefore, some candidates and committees may not appear in this publication (i.e., they did not exceed \$5,000) and some offices or ballot issues that appeared on the ballot are not listed in this publication (i.e., none on the ballot exceeded \$5,000).

Each section includes hyper-links (in blue) to our website data which can be directly accessed while viewing this publication from your computer. However, for the most detailed information, you may wish to visit our office (11th Floor, State Capitol) and examine the file for a given committee or entity.

Ballot Issues

This section summarizes how candidate and ballot question committees were financed during the 2016 election year. The information was obtained from the Campaign Statements (NADC Form B-1) filed by the candidates and ballot question committees.

Within the following summary, “Annuals” refers to annual campaign statements leading up and prior to the 2016 election year. “Primary” refers to campaign statements filed for the primary election. “General” refers to campaign statements filed for the general election. “Receipts from Others” includes contributions from Businesses, PAC’s, and Political Parties. “Receipts from All Sources” includes receipts from individuals and others and also may include loans received or repaid and bank interest. “Won or Lost” next to Primary or General designates if the candidate won or lost the primary or general election.

From your computer, you may click on a candidate or committee name for a link to filings by the committee that are available on our website. Contributions, Expenditures and other data can be found under "B-1: Campaign Statement [Candidate or Ballot Question Committee]" by clicking on the period which the statement covers. (Typically there are three campaign statements per election, two before and one after). After clicking on a statement period, you will see the first page of the statement with links to the remaining pages toward the top of the statement. Schedule A lists contributions from Individuals (for the election to date). Schedule B lists contributions from all other sources (for the election to date). Schedule D lists expenditures for the reporting period only.

Section: II

POLITICAL ACTION COMMITTEES

This section summarizes how Independent Committees, generally referred to as Political Action Committees (or PAC's) made and received political contributions during the 2016 election year. The information was obtained from the Campaign Statements (NADC Form B-4) filed by the Political Action Committees.

Typically, a PAC is formed by a group of two or more individuals for a general cause (e.g. to support candidates who favor agriculture). PAC's which are formed by a corporation, union, or other entity and which receive voluntary contributions from their employees, officers, directors, stockholders, or members are referred to as Separate Segregated Political Funds. A separate bank account must be established and the sponsoring organization (corporation, union, or other entity) may not contribute (from its own "general" fund) to its separate segregated fund. A PAC which supports or opposes a candidate or issue appearing on the ballot must file campaign statements (NADC Form B-4) during that election period.

In the summary on the next page, "Receipts" refers to the net total of all receipts from all sources during the election year and "Expenditures" refers to the net total of all expenditures during the election year. "Nebraska Expenditures" are disbursements made in support of or in opposition to Nebraska state and local candidates and ballot questions. Within some PAC names "NE" is short for Nebraska.

From your computer, you may click on a PAC name for a link to all filings by that PAC. Furthermore, for each PAC, you may click on the "Nebraska Expenditures" amount for a list of all the state and local candidates and ballot questions which were supported or opposed by that PAC during the year.

POLITICAL PARTY COMMITTEES

This section summarizes how Political Parties made and received political contributions during the 2016 State and Local Elections. The information was obtained from the Campaign Statements (NADC Form B-2) filed by the Political Parties.

Political Party Committees are not required to summarize grand totals of receipts and expenditures on their campaign statements. They are required to disclose: contributors who gave them more than \$250; and, candidates or ballot issues whom they supported or opposed (in any amount) during the election year.

From your computer you may click on a Political Party committee name for a link to all filings by the committee that are available on our website. Contributions and Expenditures can be found under "B-2: Campaign Statement [Political Party Committee]" by clicking on the period which the statement covers. (Typically there are three campaign statements per election, two before and one after). After clicking on a statement period, you will see the first page of the statement with links to the remaining pages toward the top of the statement. "Contributors" lists contributions received. "Expenditures" lists disbursements on behalf of candidate and ballot question committees.

Section: IV

CORPORATIONS, UNIONS & OTHER ENTITIES

This section summarizes how Corporations, Unions, & Other Entities (LLC's, LLP's, and Industry, Trade, or Professional Associations) made political disbursements during the 2016 election year. The information was obtained from the Reports of Political Contributions (NADC Form B-7) filed by those entities.

All Corporations, Unions & Other Entities formed under Nebraska law or doing business in the state of Nebraska must report their political expenditures of more than \$250 in support of or opposition to candidates and ballot questions. Corporations, Unions & Other Entities that wish to solicit political contributions must do so through a Separate Segregated Political Fund which is a type of Political Action Committee (see Section II).

The figures reported in this section include direct contributions (money, pledges, in-kind contributions, and loans) to candidates and ballot questions committees, and in-direct contributions such as independent expenditures (made without input from a committee) supporting or opposing candidates or ballot issues.

For further detail you may click on the link at the end titled "B-7 DETAIL" to open a 52 page document illustrating the committees that were supported (or opposed) by these entities.
